
TECHNOLOGY IN MATHEMATICS TEACHING AND LEARNING

Mae Albacite

- lack of resources
- minimal knowledge about operation on gadgets
- Students who have limited access in technology and data/internet connection
- Students who is late in technology exposure

Mae Albacite

- it uses unfamiliar terms that students may not be able to understand.
- provides a lot of information instead of more specific and detailed one.

Mae Albacite

- it exchanges students in doing their tasks, assignments, activities. it is used inappropriately.
- the lack of availability of resources.

Mae Albacite

- lack of resources
- tardiness
- close minded

Mae Albacite

- Know the different application of technology in teaching and learning
- To master our digital skills
- Explore the different technology invention

Mae Albacite

- we are able to create creative presentation
- we can apply the skills on the real world situation

Mae Albacite

- students
- people who are willing to learn

Mae Albacite

- growth
- knowledge
- determination
- learning

Mae Albacite

- Teaching Practices and efficiency
- Students understanding and experience

Mae Albacite

- basic knowledge about technology
- skills on the digital manipulation
- mastering technical skills

Mae Albacite

- mastering technical skills
- f2f
- hands-on activities
- by letting yourself open for improving
- youtube videos
- google
- ai application
- constant practice
-

Mae Albacite

- skilled personnel
- professionals
- even people who mastered this skill

Mae Albacite

- improve learning and teaching mathematics
- explain and elaborate on mathematics lessons effectively
- make learning and teaching easier.

Mae Albacite

- gathering information that can be used as examples in mathematics problems, equations and more.
- solving mathematical equations and also in graphing.
- discussing mathematical equation and descriptions
- searching ideas and videos about the topic/lesson

Mae Albacite

- understanding math effectively
- makes learning flexible and easier
- searching ideas and videos about the topic/lesson

Mae Albacite

- Power point presentation
- Mathematics application or apps
- excel
- google sheets
- geogebra
- calculation

Mae Albacite

- discussing mathematical equation and descriptions
- explaining the lesson clearly through the use of educational apps and technology
- teaching mathematics more accessible and flexible

Mae Albacite

- provide quality education for the learners
- doing technical works easier
- present their presentation through ppt's/online

Mae Albacite

- Better visual effect or example
- More understandable and clear example

Mae Albacite

- more fun
- fast and easy

Mae Albacite

- It's everywhere online
- Does not cause to much time for the info

Mae Albacite

- new websites and apps can help learners and teachers. Nowadays, many websites and apps can provide useful information and generate online materials that can help students with their schoolwork and assist teachers in their teaching.
- The apps available today help students learn more easily and also help teachers improve the way they teach.

Mae Albacite

- new ways of teaching
- better learning opportunities
- easier access to information
- new ways of studying
- the way teachers teach
- the way students study
- society and education
